From the Ice Maker

Blading

Blading is part of our regular Ice Maintenance and is done daily Monday through Friday on all twelve sheets. The purpose behind blading is to help prevent excess pebble build-up, especially on the outside areas of the sheet; this keeps the entire sheet more consistent and a little cleaner as well. By removing the pebble you also remove some of the surface dirt so it aids in keeping the ice clean.

Blading is done with a 21 inch blade pushed up one side of the sheet then down the other, moving inward after each pass until the entire sheet has been completed. This takes ten passes on each sheet. The ice is then swept to remove the snow, pebbled, and it is ready for play.

I would like to wish everyone good luck in the upcoming Bonspiels.

From the Superintendent

Although snow cover on the Golf Course is still minimal, we have worked out cross country ski trails which may be used by Members and their Guests.

All skiers are asked to report to the Front Office to pick up a map on which these trails are marked. The starting area is by the Pro Shop and all trails are marked with red ribbon.

Please adhere strictly to these trails which run mainly on roadways and around the perimeter. Skiing on finely turfed areas causes snow compaction, the formation of ice, and results in damage to the grass.

Junior Curling "The Lifeline of the Club"

Thanks to great attitude displayed by all participating juniors, the first annual Parks and Recreation Department's Christmas Bonspiel was a success.

This keenly curled competition featured good sportsmanship and shot making. Lots of fun and the possibility of a four-way tie heading in the final round.

Congratulations to all the winners and special thanks to our community minded sponsors: Palm Dairies, Dairy Queen, Pepsi-Cola and the Prince George Golf & Curling Club.

Good Curling!
