Golf Course Mechanic: The Unsung Hero

The past ten years have brought about a tremendous change in the equipment that golf course superintendents use to maintain their golf courses. Tractor drawn, ground driven units for use on fairway turf and certain rough areas are virtually a thing of the past. The trend to use lightweight mowers in the three and five unit classification on fairway turf has been established and appears here to stay.

Golf Course superintendents seem to be cutting all fine turf areas at lower heights, which puts a premium on a sharp, properly adjusted, well maintained machine. The person generally responsible for the overall performance of a mowing machine and other golf course equipment is the Golf Course Mechanic.

Many golf courses today have equipment inventories that easily exceed \$300,000 in replacement cost. Included in the inventory are many specialized pieces of equipment which require altogether different preventative and daily maintenance. Mowers of varying types and styles, tractors, transport/utility vehicles, spray apparatus, aerators, trucks, trap rakes, weed eaters and sod cutters — the list goes on. Maintaining all the above mentioned equipment in proper operating condition sounds like a large responsibility. It is.

The mechanic at our golf course is Dean Ward. Dean, who has been with us for the past 9 seasons, completed a course in heavy duty mechanics at the College of New Caledonia in the spring of 1988. Thereafter, he assumed the position of Golf Course Mechanic. He has since made considerable improvements to the overall condition of our present line of equipment. Thank you, Dean, for a job well done.

Wes Petkau
Golf Course Superintendent

P.S. Cross Country Skiers: please note that trails on the golf course have been marked and are ready for use. Maps and guidelines should be obtained from the front office before proceeding onto the course.

From the Icemaker

With the new year upon us, the 1990 bonspiels and respective zone playdowns are soon to begin. I would like to remind those looking for a little extra practice to please check or call down before they come, to insure there is an available sheet.

Draw sheets are posted in the downstairs lobby as well as in the Annex. As our regular maintenance is not shown on these sheets, I have listed the burn schedule for the month of January.

January 4, 15, 29	Sheets 1 - 4
January 6, 17, 31	Sheets 5 - 8
January 8, 24	Sheets 9 - 12

Please remember that a deep burn and cleaning takes a full day, so these sheets will be closed from 8:00 a.m. to 6:00 p.m.

On behalf of the Ice Crew and myself, I would like to wish everyone a very Happy New Year!

FAST
FRIENDLY
SERVICE

Attention All Members

We would like to inform you of a major policy change when charging beverage purchases to your account. In the past, the members have been asked to print their name and account number and sign the tab before drinks would be delivered.

With the new change, members will be asked to do all of the above but at the end of the evening members will also be asked to sign the tab again to close it. This will give members the opportunity of verifying that the bill is in order and the opportunity of leaving a gratuity, if appropriate service has been exhibited.

The server should bring your bill to the table to be closed, but if the server is busy we would ask members to stop at the Bar to provide the required signature.

We thank you in advance for your co-operation in this matter, as it is in your best interest to comply with the policy.

The Georgian Contest

To date, there has not been a winner for December's Georgian Contest. If the prize is not claimed by December 31, 1989, there will be two numbers in January's Georgian. This is a great way to start a new decade.

If you find your membership number hidden somewhere in this month's Georgian, give Brad or Debi a call at 563-0357.
