Manager's Report

As I write this, summer has re-appeared in all its glory. The grass is growing like mad, flowers are in full bloom and your course is gorgeous.

Steve and his crew have worked very hard and from a slow beginning, have the course in great shape. Steve will be maintaining the course as long as possible towards the end of the season so look forward to a great August and September of playing conditions.

Many thanks to Murray and his construction crew. Steve and his crew on irrigation for the Driving Range. Great job! Things look better everyday. If construction of the building goes well, we should open in early August. The finishing details of the range will proceed over the end of the season and the start of next as time and resources permit.

I am happy to announce a new office manager/accountant will be in place in the next 2 weeks, completing the management team at your club. Kudos to Christine, Tammy and Denise who worked long and hard for the club, especially during this period of transition in the office.

With all the major changes that have happened over the past few years, we are moving into the phase of fine tuning all the changes and getting the standards to the level you, as a club member, your guests and the public deserve. Thank you to all the members for being patient during these upheavels. Better facilities, service and operating efficiencies will be the result of your consideration.

Please keep the feedback coming, we do accept the good with the bad. Your input, however minor it may seem to you, is necessary for us to provide the best for you.

Colin Kelly
General Manager

From the Superintendent

The driving range is in full swing now with the grass tees in play since July 17. For maintenance purposes, the mats will be in use on Mondays and Thursdays.

The ponds on the golf course have been stocked with fish in an effort to control the weeds. We have done this to eliminate the chemicals needed to maintain them.

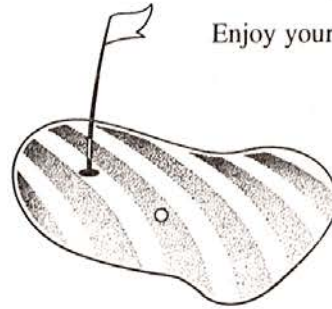

There still are a few benches on the golf course that are looking for sponsors. There are two payment programs for the bench sponsorship:

1 year @ 115.00 per month

2 year @ 65.00 per month

This is a 10 year sponsorship program. The club will provide plaques for the benches with company logos.

The sand traps on the golf course have been edged and sand will be added to them on an ongoing basis.

Enjoy your golfing!

Great West Life Hospital Pro-Am

I would like to take this time to thank all the members and staff for their efforts in making the 1998 Pro-Am another resounding success for the SPIRIT OF THE NORTH HEALTHCARE FOUNDATION.

The course was in great shape and the meal and service provided by the clubhouse staff was superb.

Club Captain's Report

A big "hurrah" to Glen Bryant and the "Dirty Dozen" for running a very successful and fun Senior Men's Golf Tournament. Bernie Walker is our 1998 Champion but everyone who took part felt like they were all winners.

I would like to express my sincere thanks to all those who took part in our second Sand & Seed evening on Monday, July 20. It is a great help to Steve Kerbrat and his staff but more importantly, to the overall condition of our course. Our team of volunteers included about 20 Junior golfers. Thanks to our Juniors.

Some of our members are not playing their matches in the various competitions by the required dates. Please make every effort to complete your matches as required or forfeit the match so as not to hold up others who are ready to play.

We have many companies who support our various competitions and without them our tournaments would not be as successful as they are and prizes would not be as significant. Please take note of the sponsor's names when you are playing and endeavor to support them personally as much as you can.

Respectfully submitted,
Dave Lloyd

From the Construction Superintendent

At the golf opening Wine & Cheese, the design committee and I prepared models for the two new greens; #2 and #18, and had them on display for the members. Building the models is almost had as much fun as actually constructing the real thing.

The design process starts with visualizing a concept, then the ideas are shaped and reshaped in sand. Going over every detail, draining, playability, hazards, risk, reward and overall esthetic value. We blend everything together in our "design sand box" until we have a scaled model including green, apron, fairway, rough and hazards. We then set the sand and paint it. We then display them at the wine and cheese. I am also around to answer any questions you may have about them.

With August upon us, we have been making preparations to begin construction on the real thing starting in mid-September, a little later than normal. Instead of using trowels, spoons and putty knives to shape the sand, our hands will be operating loaders, cats, trucks, levels, shovels and rakes. Instead of painting sand we'll be fertilizing, seeding and sodding. Although the equipment changes, the overall design and end result is the same, only on a larger scale.

It's fun building the models, but I get excited each time we start construction on an actual green. It's something that will last for many years and hopefully a lifetime.
